

Global Crisis and Revolt

Capitalism is in crisis. But everywhere, people are fighting back. From Egypt to Greece, from London to Madison, people are joining in struggle to defend their lives, their rights, and their future. What will it take for our resistance to stop the crisis? What kind of an alternative do we need to fight for? Join the Chicago International Socialist Organization for a series of discussions of how we can deepen the struggle here in the US, and fight for a world based on genuine equality and justice.

Could there be a Revolution in the United States?
