

Revolution in the air

Build the Socialist Alternative

Revolution is in the air - the epic revolutions spreading throughout North Africa and the Middle East have shown that masses of ordinary people can take control over their own lives. And the heroic struggle of Wisconsin workers to defend their unions have inspired people across the country to fight for their own rights.

We need an alternative to the current system of austerity, war, and profiteering - an alternative based on the interests of working people instead of Wall Street. Come to this public forum & get involved with the socialist movement!

**Thursday
May, 26th
7pm-9pm**

1507 W. Morse Ave
